ABOUT

Hello there! I'm Fakhreddine Messaoudi, a passionate and skilled Full Stack JavaScript Developer with nearly 3 years of hands-on experience in creating robust and dynamic web applications. My journey in the world of software development has been fueled by a deep fascination for crafting innovative solutions and staying on the cutting edge of technology.

WORK EXPERIENCE

Software Developer | Front end engineer, Proxym Group

Since February 2023

Tunisia, Sousse

- Collaborating on various banking and Insurances projects.
- Designing and developing the user interface for banking applications.
- Utilizing technologies such as JSF, Form-IO, React.js, and Angular.
- Employing tools including PrimeFaces, JavaScript, Form IO, and GitLab.

Backend Developer (Nodejs), Konnect Networks

From June 2022 to December 2022

Les Berges du Lac, Tunis, Tunisia

- Contributed to backend development and maintenance for a wallet application similar to Stripe and PayPal. App name: **Konnect**.
- Enhanced backend architecture and optimized codebase for optimal performance.
- Utilized Node.js to build robust and efficient backend solutions.
- Integrated AWS S3 for seamless storage and retrieval of transaction data.

Full stack JS Developer , Edorer

From May 2021 to May 2022

18 Bartol Street, San Francisco

- Managed full-cycle product development, including testing and feature implementation for both backend and frontend.
- Developed backend libraries and frontend components to enhance product functionality.
- Leveraged technologies such as Angular, SCSS, S3, TypeORM, NodeMailer, Express.js, JWT, Google OAuth, Passport.js, and more.
- Utilized Agile Scrum methodology to ensure efficient project management.
- Worked with a wide range of technologies including MongoDB, AWS, Git Workflow, and Stripe.

ASSETS

Learning Agility

Willingness to stay updated with the rapidly evolving tech landscape and learn new tools and technologies as needed

Performance Optimization

Knowledge of techniques to optimize web application performance, such as minimizing loading times and reducing latency.

EDUCATION

Full stack JS Developer, RBK Rebootkamp powered by HACK Reactor

From September 2020 to April 2021

RBK Bootcamp has been an empowering journey, enriching my skills in full stack JavaScript development. Through hands-on projects and collaborative challenges, I've mastered React, Angular, Node.js, and essential coding practices. With RBK's focused training, I'm prepared to excel in the dynamic world of software development.

Tunis, TU, Tunisia

Diploma, Civil engineering

From September 2017 to July 2020

Tunisia, Tozeur

SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3, Typescript	Frameworks:	Angular, React, Node.js, Express.js, Vue.js, Nestjs, Bootstrap, material ui, Nxjs, Turbo repo.
